MISSIONS TO
A BETTER
WORLD

ETWINNING PROJECT
2019-2020
SCHOOL MISSION

You enter a school that is all white, blank and a bit bizarre.

Your mission : create the school of your dreams to bring colour back to this world!

IOANNINA TEAM - GREECE

My dream school will be modern and big with many classrooms. I'd like to have colourful walls with a huge yard. Also a class of educational video games that students come and play every day for one hour.

All the students will be polite and kind with the teachers.

The breaks must last for 15 minutes, and the school must have a football pitch with real grass and a basketball court made up of wood.

Furthermore, a big swimming pool and fresh water at the toilets.

The students will be happy and smile every day.

KonstantinosG

IOANNINA TEAM - GREECE

The school of my dreams first of all I would like to be very big. Secondly I would like to have a restaurant with lots of things to eat. Thirdly I would like to have a basketball team with a very big basketball court which have lots of lights and lots of stands for the public. Then I would like to have a class with a projector and a big library with all kinds of books.

Finally, I would like to have a huge courtyard with benches, a court for football, a court for volley, and a court for basketball. I would like to have some flower beds and tall trees.

One last thing: A place for students to have fun at some events.
That was the school of my dreams.

KonstantinosZ

IOANNINA TEAM - GREECE

My dream school is one big building with colored walls. In the front yard it would have four big gardens and two big fountains. In the back yard it would have three big water pools and a lot of dogs and cats. I love animals!

When you get into the school you will see a great place to be a canteen. In your right hand you will see a long way which will have four large classrooms. When you go up the stairs you will see a great path again which will have twenty huge classrooms! At the end of the route there will be escalators to descend and climb more easily.

I would also like to have young teachers!

IOANNINA TEAM - GREECE

My dream school is the nicer of the world. The kids select the subjects that they like to do and they haven't homework.

The school is very big and it has a building for every subject. In the center it has a big garden with benches for the students. An other good of the school is that it has private aeroplane for every student, and a building with a lot of rooms and every student has a room. One of the best things of the school is that it is all day school, and the students go at any hour they want and leave at any hour they want. It has a restaurant with healthy and junk food.

The best of all is that this school is on the air, for this reason it has the private aeroplanes.

Elisavet

IOANNINA TEAM - GREECE

My dream school is beautiful and very colourful.

The yard is really big and it has a lot of flowers and plants.

The toilets are always clean.

The classrooms are big and pretty. They also have very comfortable chairs.

But the best thing about my dream school is that it has stables with horses in them! I love horses, they are my favourite animals!

Sofia

IOANNINA TEAM - GREECE

The school of my dreams is a pleasant and beautiful place where we spend half of our day learning and having creative and happy school life.

The school has got big, sunny and colourful classrooms. Every classroom has got comfortable desks and chairs, bookcases and computer and sound systems.

My dream school has got one big schoolyard with football, basketball and volleyball fields. It also has a swimming pool. My school has well equipped studio labs for computers, physics, music and technology lessons.

In a few years with the social and technological development my dream team will come true.

IOANNINA TEAM - GREECE

For me, my dream school is a school with a swimming pool, football stadium, basketball stadium.

Many trees and flowers.

A restaurant with healthy and tasty foods.

I want lessons in the classroom with tablets and laptops.

And, of course, bikes for all students.

Christos

THE ITALIAN TEAM

I would like my school was very large,with the coloured walls.There were more sporting and creative activities.I would also like there were two soccer fields,a swimming pool and a gym.I would also like the teachers did not give homework but we did them at school.The school would be surrounded by a big garden,with trees,flowers,benches,fountains,roundabouts,seesaws and other playground facilities to play in the afternoon.

Gabriele

THE ITALIAN TEAM

My dream school will be painted red and blue. The teachers have lessons with the phones and computers, and the students will have tablets instead of books. At the school there are: a football field and a big swimming pool. Every month, we have trips in other Countries by plane. Outside the school, there is a big garden , with colorful flowers and big trees.

Francesco

THE ITALIAN TEAM

I would like a school where every student can contribute to keeping the school clean and helping those in need. I also like there were many laboratories of languages, science, art, sport where have extra activities and more lessons of music, art and dance; no homework, big classrooms and a big Gym where have P.E lessons. Then I like technology much: tablets, computers but also a big library where study.....That is the school that I want.

Marisol

THE ITALIAN TEAM

My dream school will be modern and large with colorful classrooms. I'd like not have any homework. the subject will be Maths, English, P.E. and Spanish. The students must not wear a uniform but jeans and coloured T shirts. The school will have a pitch of football and a pool. That is the school of my dreams.

Andrea

THE ITALIAN TEAM

My dream school will be modern and big with many classrooms. I'd like to have one hour without any subject a week. That it would be the break to meet other students outside the classroom. I would like to stay at school until three p.m. but having no homework. At one p.m. have lunch in a restaurant in the school. That is the school of my dreams.

Giusy

THE ITALIAN TEAM

For me, my dream school must have a big swimming pool in the garden, two fountains and 10 benches for teachers and students.

The lessons start at 8:30.

The teachers are kind and the students are good and well mannered, the classrooms are colorful and very big. In each classroom there is a large sky-blue and pink locker that contains all the objects for drawing and painting. The benches are all attached and placed in two rows.

Each student has got a tablet where all the books are downloaded and they write in Microsoft Word instead of writing in the exercise book.

There is a very big canteen and there are many tables; there is a very big buffet, too!

After lunch, the students who want can go to a room where is another buffet, some cakes are exposed, such as crepes, pancakes, waffles.

There are three gyms: in one you can practice dance, in another you can practice volleyball and in one you can practice ice-skating.

There is a horse trail where everyone can ride his horse during the break.

The lessons finish at 5,30 pm and on Saturday the students don't go to school.

This is my **DREAM SCHOOL !**

-Ilaria

THE ITALIAN TEAM

My dream school is a school with a canteen ,full of space for every student favourite sport as volleyball, football and basketball fields. In this way the students have space and time like one hour a day to make everything they wish. I want a school with comfortable and coloured chairs and desks to spend the time with happiness and tranquility. After that I dream a school with cooking, informatic activities and tailoring laboratories to develop at the same time mental, physical and the manual abilities. I wish a school full of technology to learn the correct use of internet and informatic instruments because our generation is in contact every second with the web. These and more things I dream for my school so that becomes the best school of Italy.

-Emanuela

THE ITALIAN TEAM

The school of my dream must have very large and colorful classrooms, with comfortable chairs and large benches. It must have the canteen with hot and good food, and must have a classroom for different activities . It must have two large gardens, and two large fields one for volleyball, one for football, and also must have a swimming pool. The school must have afternoon activities that every student can choose to practice . It must have a kitchen so the student can learn to cook with the supervision of the teachers, and also a garden where during break , student can eat and talk to each other. And at least in the school there is a large library to read and relax.

-Domenica

THE ITALIAN TEAM

The school of my dreams is large and coloured, with many classrooms where different subjects are studied. Behind it, there is a place to have lunch, a pond with swans ,a large soccer field, a gymnastics, a tennis court and a swimming pool at the end. In the school of my dreams I would like to practice many different sports together. But the most important thing I would like to see a place where there is no discrimination,bullying or racism. This is what I would like in the school.

-Elisa

THE ITALIAN TEAM

My dreams school is a big and colorful building, with many laptops where are the books. There is a garden with the fountains and a very big pool. There are many classrooms where different subjects are studied. I would like a different soccer field where practice many sports and a very large library.

General Information

We are going to say things that could improve our school. The first thing is we could improve is the prices of the school market because they are a little bit high. The second thing is that they also have to improve the canteen because there are benches instead of chairs and we could improve our back position by buying more chairs. We can also improve the wifi because when we are in the computers room it sometimes doesn't work. But even if there are bad things there are also good things like the good teachers that they help us a lot. We would also love to have more P.E and music classes to have fun. And this is all , we finish here.

We hope you like this project.

Hi im gael and Im whith mi friend diego well this is the playground this is our play ground I thing that we have to put more things but its ok we have to better the ground and more well chao

THE SPANISH TEAM

All teachers in general are very nice, if you really know that there are some that demand more than others but in general we like it very much.

What we like the most of them is that they explain things well and respect us but we don't like to be sensing a lot of homework.

Álvaro, Lucía and Estera

THE SPANISH TEAM

We are going to write about how our school is and what we would change about it.

In general all the teachers we have had are very friendly and those who have taught us too, what we like most about them is the way to explain, because each one explains it in a different way, but the bad

We could improve recess. The truth is that there are many types of breaks. In my recess the teachers are friendly and we have a shop where to buy things.

But it is only available if you are a high school student. Those who study in elementary school cannot buy only those in sixth grade can but only in the third trimester. There is a big difference between primary and secondary recess clearly primary recess is more as people play a lot you see children running everywhere and in the high school there are people sitting and talking and some people playing sports.

THE CANTEEN OF OUR DREAMS

We think that the best canteen of the world must have : good food and cooks,a lot of tables divided into primary and secondary,that has big toilets for three students,another table for the teachers and a big kitchen for the cooks and the best of all is that the canteen should have waiters.They must have three waiters.And this is our dreams canteen.

THE SPANISH TEAM BY MARIA AND EMMA

IN OUR SCHOOL THE TABLES ARE BY PAIRS, BUT WE PREFER TO BE BY GROUPS OF FOUR. WE DON'T HAVE POSTERS OR PICTURES ON THE WALLS, SO WE WANT TO PUT PICTURES OR POSTERS THERE. WE WANT TO HAVE SOME PUFFS TO BE COMFORTABLE. WE WOULD PUT NEW TABLES BECAUSE THEY ARE GREEN AND BROWN, AND WE WANT TABLES A LITTLE BIT BIGGER AND OF OTHER COLOUR. WE WANT A TV IN CLASS. WE WOULD PAINT THE WALLS OF OTHER COLOUR

IN OUR CLASS WE HAVE A PROJECTOR THAT IS PROGECTED IN A NORMAL BOARD, AND IT COULD BE BETTER TO HAVE A DIGITAL WHITE BOARD. THE DECORATION IS BORED SO WE WILL PREFER TO HAVE COLORS IN THE WALS, POSTERS , PICTURES

We would like to improve tests of all subjects because they are a bit long :)
Maths are very good and English to but there are so long classes.

In the English class we study a lot .The exams of the English are very easy but the exams of other subjects are more difficult .in the English class we correct and do exercises to review next they send homework and we do it in class .

I want that the classes are more happier because there are so boring .

A DREAM SCHOOL (SPACES) .

Our dream school would be with an indoor pool in the courtyard, where they would take swimming lessons, as if it was one more subject. We would also like to have an art room where we could design what we like the most. In the courtyard there could be a tree house for the little ones to play, but always with security and a teacher supervi

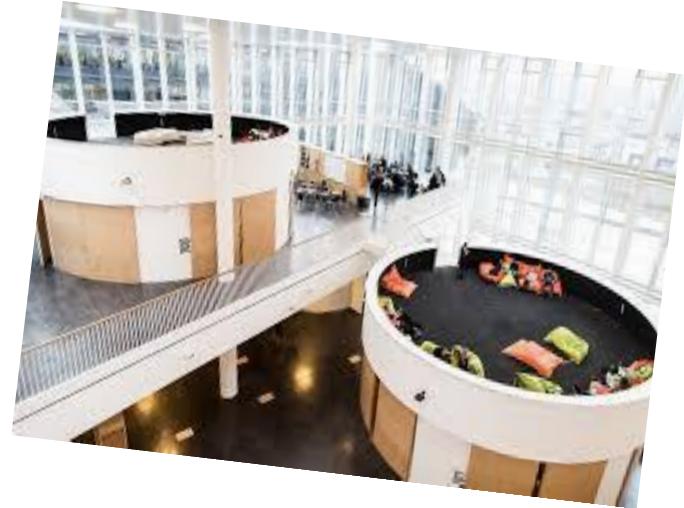

The Ukrainian Team: Our Dream school (Karina and Evelina)

I want my dream school to have no homework ,modern music to play in the school and so that there are no pens and notebooks everything is electronic.To have a girl gymnasium. I love my school but .I would like this .

The Ukrainian Team: Our Dream School

(Stas)

I want my school to have lots of laptops , tablets and ebooks.
And the gym would have the latest sports equipment to work
out for everyone. In my dream school students don't use

I wish there were no exams in my dream school. That everyone in the school was polite and friendly, not rude, so there were spacious corridors and large classes. For me the dream school is to stand Apple Macbook Air in all classes. So that our schools would be like abroad:)

The Ukrainian Team

I would like to see my dream school with spacious corridors, large classrooms, single desks and lots of light. The dream school is a school with many outdoor lessons. I want the school to be big and have many floors. There should be lots of school equipment and interactive whiteboards in the school.

SCHOOL ACTIVITIES IN OUR DREAM SCHOOL

We would like to have computer game tournaments in our dream school. When students win a game, teachers will take these students abroad. We can watch current movies and listen to favorite songs. We can go to school trips regularly.

We want to swim in the swimming pool with our buddies. Teachers and students do exercise together every morning to keep fit. We have different clubs such as space club, environment club, life skill club. We both learn and practise in these club activities. Parents help teachers when they are in need and teachers and parents organize common activities together

TEACHERS IN OUR DREAM SCHOOL

In our dream school, the teachers are sincere, honest and reliable. They are also cheerful because they make their students have fun while teaching. They love their students. They are never arrogant. They must have special skills like technological, musical, leadership skills. They are good at helping students and interested in reading books and environmental issues. They are sportive, energetic and caring.

INFRASTRUCTURE OF OUR DREAM SCHOOL

Our dream school is a big school in the middle of a big garden. It has an indoor swimming pool and an infirmary. It has got a gym where we can do different kinds of sport. The corridors and the classrooms are big enough with comfortable desks and chairs. There are air conditioners in the classrooms because İzmir is a very hot city. We have volleyball, football and basketball pitches in the school garden. Our school has an internet cafe and we can use computers in our free time. There is a big restaurant on the last floor and we can eat nutritious healthy food while we are watching the beautiful sea view of Aliağa. We have small zoo in the garden and we will feed the animals there. The garden has lots of fruit trees and colourful flowers. We also have areas for special needs students, a music classroom with many instruments and labs.

SCHOOL TRIPS OF OUR DREAM SCHOOL

We have a lot of tourist attractions in our country. First of all we would like to see them. We want to visit Atatürk's Mausoleum in Ankara, Cappadocia in Nevşehir, Cotton Castle Travertines in Denizli, Bosphorus Bridge in İstanbul and so many ...

We want to go to these countries. We like eating sushi in China. We want to see Kremlin Palace in Moscow and Buckingham Palace in London. We would like to visit Finnish school in Helsinki. We like visiting NASA in America and Cern in Switzerland. We also want to see Eiffel Tower in Paris, to ride a gondola in Venice, to see Alhambra in Spain, visit Acropolis in Athens and to have a Chernobyl tour in Ukraine.

SCHOOL SUBJECTS IN OUR DREAM SCHOOL

We think our dream school must have science, history, drama, English and courses like swimming course, musical instrument course, dance course... Because we love these lessons. ICT is the most important class. Teachers support students with art and music. Materials are very important because we need them in our lessons. Our directors support us with materials. We have different labs like science lab, language lab, math lab. We can do experiments and practise there when we want to learn something. Students in our dream school can learn to play a musical instrument according to their interests.
